

The National Center for Missing and Exploited Children® (NCMEC) was established in 1984 as a private, nonprofit 501(c)(3) organization. NCMEC provides services nationwide for families and professionals in the prevention of abducted, endangered, and sexually exploited children. Pursuant to its mission and its congressional authorization (see 42 U.S.C. § 5773), NCMEC operates the CyberTipline and the Child Victim Identification Program to assist law enforcement in identifying victims of child pornography and child sexual exploitation and works with law enforcement, Internet service providers, electronic payment service providers, and others to reduce the distribution of child sexual exploitation images and videos over the Internet. NCMEC does not investigate and cannot verify the accuracy of information reported to NCMEC. NCMEC forwards reports of child sexual exploitation to law enforcement for purposes of investigation and disposition of potential criminal wrongdoing to be determined solely by the relevant law enforcement agency and prosecutor's office.

The submitted files were compared with NCMEC's Child Recognition & Identification System (CRIS). There were files that appear to contain a child victim who has been identified by law enforcement.

The following 'Child Identification Report' will list the specific file names, the corresponding series name, and the law

enforcement point of contact who is providing age verification for the child.

Series noted within the attached Child Identification Report may require victim notification in accordance with the Crime Victims' Rights Act, 18 U.S.C. section 3771 and the Crime Control Act of 1990, 42 U.S.C. section 10607. Please note that while some series contain multiple children, not all children may have opted in. FBI's Office for Victim Assistance Child Pornography Victim Assistance (OVA CPVA) Program has been provided a copy of this report and will forward a list of victims, contact information and notification preference to the investigator and designated victim assistance or notification personnel within your agency. If you have questions on victim notification, please contact the OVA CPVA program via email cpva@ic.fbi.gov or phone 1-877-236-8947 (option 3).

It is the responsibility of the submitting agency to contact the listed law enforcement contact(s) for verification and identification of the child victim(s).

Due to the sensitive nature of the information requested, please refer to the instructions below to ensure the series points of contact are able to validate the request.

- ❖ When reaching out to a point of contact for additional information, whether by email or phone, please provide the **NCMEC TA Report #**, seen on the next page.
- ❖ If the request is made via email, please use your Agency email account or the same email account provided to NCMEC/Child Victim Identification Program at the time of request. These personal accounts may be regarded as spam by some filtering programs, and may be viewed as "an unofficial request" by the recipient.

Adhering to these guidelines will allow the series points of contact to validate and respond to your requests quickly.

CVIP recommends requesting an affidavit from the law enforcement point of contact as the first step in verifying the image.

Based on the demands placed on series point of contacts, *we ask that you reserve serving a subpoena as a last resort.*

Within the Child Identification Report, you will find fields titled "State" and/or "Country". This information indicates the jurisdiction where the image/video files were produced and is provided to demonstrate the distribution of files. Additionally, "Multiple Jurisdictions" indicates multiple victims and/or jurisdictions of production while "Unknown Jurisdiction" indicates that CVIP has not been provided this information. All information regarding the distribution of files should be verified by the series law enforcement point of contact.

Please contact CVIP at cvip@ncmec.org or 1-877-446-2632 ext. 6705 with any additional questions.
